

FKDR Front linkage attachments

Front Linkages available for Kubota GR/ G series, John Deere X300/ X540, Grillo FD300/FD700, Viking T5/T6, Stiga Park/Villa, Iseki SXG216, Castel Garden XHT21, New Holland GT75, Toro DH220/XL, Husqvarna R 316T and more on request.

PERFORMANCE

The FKDR range of sweepers and attachments are designed for utility of Ride on Mowers. They may be quickly attached to most ride on mowers of 15 HP or above on the FKDR Front Linkage, which allows lift/lower and angling of the attachment. This mounts behind the implement and is possible to control manually or hydraulically. The FKDR can also come with function to operate the attachment hydraulically if necessary. The sweeper may be specified with and without a collector. Attachments can be operated from the seat and removed in seconds without tools.

RELIABILITY

Designed and manufactured in a modern facility by dedicated personnel using the latest production methods and powder coating. The robust construction and upgraded features should offer many years of service.

All equipment and attachments come with a full 1 year Warranty. With this system your prime mover will become a year round tool. The extra capabilities offered by adding extra attachments offers cost savings, extra convenience and operator comfort.

EASE OF USE

The FKDR/Mech offers the added benefit of hydraulic power for implements such as sweepers. The FKDR/Hydr offers all that plus lift/lower and angling. The kit includes a hydraulic pump, tank, valves etc all tailored to each power unit. This equipment is permanently mounted on the mower.

The compact implements allow great compatibility with smaller ride-ons. A large range of implements are available for a professional finish in many applications.

FKDR Front Linkage and attachments for Ride-on Mowers

	CODE	DESCRIPTION	PRICE
	FKDR	Front linkage kit for Ride-on Mowers Manual lift and lower Manual angling left and right All actions from operators seat. Quick-Attach-A implement hitch.	465.00
