

KCM976 – Cylinder Mower

Above: KCM976 mowing deck cuts close to obstacles reducing the need for secondary mowing.

PERFORMANCE

Cylinder lawn mowers give the best finish to all lawns, with the traditional stripped effect; they cut the grass very cleanly without ripping it. With low vibration and low noise it makes any job less stressful. The clean lines of the side plates allow the operator to mow close to obstacles to reduce secondary trimming. The full width adjustable roller allows the cutting height to be finely set between 13mm and 50mm. The high clip rate gives a quality finish at forward speeds of up to 7km/h.

RELIABILITY

- 9hp Honda petrol engine—high reliability and durability.
- Heavy duty hydraulic transmission and drive to mowing head—low maintenance with smooth operation
- Hydraulic implement drive with variable speed control – robust, long life mechanism
- Heavy duty construction—with powder coated metal chassis and mower attachment

EASE OF USE

- 70mm Quick-Attach system—no need for tools
- Variable Speed Control
- Hydraulic Transmission
- Forward and reverse drive
- Large diameter drive wheels
- Parking Brake
- Hydraulic drive to cylinder
- 30" Cut (76cm)
- 8" diameter cylinder (200mm)

Kersten KCM976

The K2100 with KCM976 cylinder mower attachment, is a two wheel tractor that features premium engines, hydraulic transmission to the wheels and hydraulic power take off to the implement. The hydraulic systems allow the operator to finely adjust the power unit to suit many tasks. The Kersten Quick-Attach70 system is a standard feature of these machines and enables attachments to be changed in seconds without the use of tools. The hydraulic operation also means maintenance is kept to a minimum.

Kersten offers a range of robust attachments for the clearance and collection of debris from a variety of surfaces including roads, yards, tennis courts, factories, synthetics sports surfaces and even grass. Efficient collection may be made using the easy to empty collector box and the side gully brush looks after the edges. The front brush guard prevents material from being thrown from the brush when the collector is not being used. A sprinkler system can be fitted for use in dusty conditions. Snow can be cleared using the brush or a snow blade and slippery surfaces dealt with using the salt, sand and grit spreader.

K 2100B G	Two Wheel Hydraulic Power Unit—Low Vibration • 9hp Honda petrol engine • Heavy duty hydraulic transmission and drive to sweeper • Forward and reverse direction with differential and variable speed control 0-7km/h • Large diameter drive wheels (4.00 x 8 turf pattern) • Operator presence control • Parking Brake, ISO mounted handle bar with height adjustment. • Low Vibration 3.2m/s ² • Low Noise <82dB (Operator's Ear) • Hydraulic implement drive with variable speed control, quick release couplings and implement Quick-Attach70 system.	4695.00
E-START-K2000	Electric Start	720.00
KCM976 MULTI H-K 70	Cylinder Mower Attachment 70cm overall width 76cm Six blade heavy duty cylinder with inboard hydraulic drive and full width rear roller. Adjustable bracket position to provide optimum balance Quick-Attach70 system Only suitable for the K 2100	2495.00
EFKM 10037 H-KU 70	Front Sweeping Machine 100cm overall width 107cm • Fully adjustable for height and angle - 37cmØ suitable for sweeping hard and soft surfaces including artificial sports surfaces. • Internally mounted drive motor. • Kersten Quick-Attach70 system.	1795.00
EFKM 10037 H-KU 70 KR	Heavy Duty Front Sweeping Machine 100cm —overall width 109cm • Fully adjustable for height and angle - 37cmØ. Externally mounted heavy duty drive motor with side chain drive to brush. May be used for heavy duty moss removal in hard surfaces and compacted artificial sports surfaces where a more aggressive brush is required. • Kersten Quick-Attach70 system.	2050.00
GUSPL 100	Front Brush Guard 100cm For use when collector is not fitted to prevent flying debris.	165.00
SSB 1050 K	Collector Box 100cm and Brackets Made from durable PE plastic	575.00
SSB 1050 B-KR	Sports Separation Collector 100cm For helping to clean debris from artificial surfaces. Filters sand or rubber through a mesh, redistributing clean infill back to the surface.	645.00
ASM 4037 ASM 4037	Side Gully Brush 40cm - Belt Drive Side Gully Brush 40cm - Hydraulic drive	495.00 895.00
WAS 51 K 1500	Dust Suppression Kit 5 litre water sprayer to reduce dust	325.00
KRB 250 KU 70	Folding Brush for Artificial Sports Turf 2.5m For levelling, grooming and presentation of artificial sports turf. Folds to 1.10m for transport. Includes storage stand and weight tray. When used on the K2000/K2100 this brush can cover a full size hockey pitch in 22 minutes and may be used with a trailing sulky seat. Fully adjustable Quick-Attach70 linear brush.	1,995.00
RB 090 H-K 70	Rotary Broom RB 900 90cm diameter brush head for sweeping and windrowing material to the side. Quick-Attach70 system	1095.00
WKB-H-K 70	WeedBrush Attachment For Moss and Weed Removal and Path Edging. 40cm rotary wire brush with hydraulic drive. Fully adjustable for height, angling and penetration. Quick-Attach70 system	1650.00
DOME 090 H-K 70	Double Reciprocating Knife Mower 90cm Quick-attach 70 system. Mower. May be fitted to the K 2100	1295.00
SULK-SWH	Sulky trailing seat including tow hitch	765.00
SCHN 100 FK-M-KU 70	Sprung Snow Plough 100cm	695.00
SCHN 125 FK-M-KU 70	Sprung Snow Plough 125cm 45cm deep shock sprung steel blade with replaceable urethane edge. Angling to left and right. Quick-Attach70 system.	725.00
SCHNK 400 X 8	Snow Chains for wheels 4.00—8 and 16 x 6.50—8	85.00
SLDST 70 K 70	Rotary Gritter/Spreader Suitable for sand, salt and grit. 70 Litre Hydraulic drive with adjustable spreading width 0.5-4m. Stainless steel spreading disc. Quick-attach 70 system.	1995.00
RSL-SLDST 70	Damp material agitator for gritter/spreader	159.00
ADP-SLDST	Hopper cover for gritter/spreader	105.00
