

Two wheeled tractor attachments

Above: Aebi CC66 with blower attachment.

Left: Benassi MC2300 with sweeper.

PERFORMANCE

Kersten's robust PTO attachments can be used on a wide variety of two-wheeled tractors using the specially made attachment linkage. This allows your existing tractor to sweep and collect, spread materials, blow leaves and debris, mow with the flail attachment and clear snow with a range of blades.

RELIABILITY

All attachments are made to the same exacting standards as all Kersten machines, and finished with powder coating to your own colour requirement.

Enjoy the same performance of PTO attachments that Kersten offers for its UBS range of tractor power units.

EASE OF USE

Kersten's specially made mounting/PTO adaptor for mechanical drive two-wheel tractors like Aebi, Agria, Bertolini, Jet, Goldoni, BSG, Ferrari, BCS, Pasquali, Rapid and more, means your machine can work harder for you. Specify machine and application on ordering.
