Kubota RTV 900 Front Linkage Kit and Snow Blade

Kersten Lite 1.8metre snow blade on Kubota RTV900

The "Kersten Lite" professional snow plough attachment from Kersten (UK) Ltd offers greater versatility for the RTV900 truck. This new attachment features electric lift and lower with up to 300 kg of down-force and manual or hydraulic powered angling which may be remotely operated from the driving position. The blade has an automatic trip out system and spring loaded torque limiting which may be locked when being used for light grading.

The blade has been carefully designed and manufactured to provide very strong yet light weight structure and features an adjustable and replaceable front edge. The complete system may be removed from the vehicle in minutes leaving only a small bracket and the electrics in place. The complete unit is powder coated.

Kersten Lite Snow Plough Kit 1.8 metre
